## ISSUES & CANDIDATES

## Missouri State Auditor

Name: David Gregory

Website: <https://gregoryformissouri.com/>

Office: Missouri State Auditor

As the only actual auditor running for State Auditor, nobody is better prepared than I am.

This is what I do. I'm an attorney and an accountant. I'm well-trained in collecting evidence, tracking down leads, and following the money to expose the politicians who are misusing it.

As your State Auditor, I will relentlessly investigate spending on illegal immigration, expose illegal funding of abortions in Missouri, and inappropriate spending on Critical Race Theory in our schools. I'm proud to be endorsed by the Police statewide and will defend, not defund, our police.

I will also attack waste, fraud and abuse in government. In my first term as a State Representative, I audited the Department of Revenue and found over \$36 million in savings. Since then, I have worked with my colleagues and the Department of Revenue to successfully implement these findings.

Most recently, I led an investigation in my Special Committee on Government Accountability to expose anti-competitive practices in the meat-packing industry and find solutions to protect Missouri Cattlemen.

This is why I'm running to be your next State Auditor. I would appreciate your vote on August 2.

MISSOURI RIGHT TO LIFE/NRA/Missouri Police

# THE EDUCATED

## ISSUES & CANDIDATES

## State Auditor

Name: Scott Fitzpatrick  
Website: <https://www.scottfitzpatrick.com/>  
Office: State Auditor

### Fighting Waste and Fraud

As Auditor, I'll expand upon the work I've done throughout my public service. Where waste, fraud, and abuse occur, I will find it and root it out. I have a record of doing that as Budget Chairman and as Treasurer. As Auditor, I will have the tools necessary to continue that work on an even greater scale, allowing me to have an even larger impact on government at the state and local level.

### Blocking Taxpayer Funding for Illegal Immigrants

As House Budget Chairman, I defeated a plan hatched by Democratic Governor Jay Nixon to give illegal immigrants in-state tuition at Missouri higher education institutions by cracking down on their funding. After Democrats lost that battle, they attempted to change state regulation to allow those same illegal immigrants to receive scholarships funded by Missouri taxpayers. Once again, I fought back against this attempted abuse of taxpayer money, and I won by passing a bill overriding those regulatory changes and leading the override of Governor Nixon's veto of the legislation. As Auditor, I will ensure your tax dollars are not spent providing benefits to illegal immigrants.

### Defending Missouri Values

We have witnessed countless attacks on our values and out of control spending from the Biden Administration and the liberals running Congress. Missourians are fiscally conservative, and we don't take it well when politicians and bureaucrats waste our money on inefficient programs or by giving handouts to insiders. As Treasurer, when the Low Income Housing Tax Credit Program (the state's largest tax credit program), was wasting millions of dollars per year to benefit wealthy developers, I championed reforms to the program that are saving tens of millions of dollars per year for taxpayers. As Auditor, you can trust me to give you the facts, fight for reforms wherever they are needed, and not cave to pressure from lobbyists or special interest groups when those facts show they are benefiting from sweetheart deals at your expense.

### School District Oversight

Our kids are the future of our state and are our most precious resource. I am a product of public education, and I am proud to be the son of a lifelong schoolteacher. Many of our schools do a great job educating our children and preparing them for their next phase of life, but unfortunately, not all Missouri schools are delivering acceptable results. In 2008 the legislature passed a law to allow the Auditor to audit school districts. In the 14 years since that law took effect, only 19 audits have been conducted pursuant to that authority, despite there being 516 school districts in Missouri! Meanwhile two thirds of Missouri students aren't proficient in math or science, and over half don't read at grade level, despite record levels of funding for public schools. As Auditor, I'll review administrative costs and administrator salaries and measure the performance of our schools against the investment taxpayers are making in them. I'll ensure schools are following the law and keeping politically divisive curriculum like Critical Race Theory, and discussions relating to gender or sexual preferences out of the classroom. I will help parents make sure their schools are doing what they're expected to do: teach kids the things they need to learn to be prepared to join the workforce or go to college.
