# THE EDUCATED

## ISSUES & CANDIDATES

## St Charles County Council 7th District

Name: Tim Baker

Website: <https://www.facebook.com/FriendsforTimBaker>

Office: St Charles County Council 7th District

My name is Tim Baker, I am running for St. Charles County Council District 7. This is my first time running for office. I am a christian and I believe my faith called me to duty.

I married my high school sweetheart, Lisa and we have been married over 30 years. We have two grown daughters and two lovely granddaughters that we adore.

I am a licensed Professional Civil Engineer and have over 32 years experience with infrastructure improvement projects around the St. Louis Metropolitan area including the beautiful streetscapes around downtown Cottleville, the Hawks Nest Overpass in St. Charles, Fort Zumwalt Park in O'Fallon and most recently the Streets of St. Charles Development.

I have worked for the St. Louis County Highway Department, the City of St. Charles where I served as the Public Works Director and for the past 20 years as a design consultant for infrastructure improvement projects.

I feel that with my infrastructure experience, I can use my experience to help people with their stormwater, sidewalk and roadway concerns.

When I was asked to run for County Council, I was not aware of the predicament that some folks who lived in the Heritage subdivision were experiencing with creek erosion which was in turn damaging some foundations to existing homes resulting in one house being torn down and another house vacated by a young family.

The people turned to St. Charles County for help but they were told that its a "private issue". I found out about the issue and I notified State Senator Bob Onder of their issue and within a month, the State allocated \$2.5 Million to solve their problem. I feel that faith led me to help these residents! If I dont win this election, I still will have satisfaction knowing that I helped some people in need.

# THE EDUCATED

## ISSUES & CANDIDATES

## St Charles County Council 5th District

Name: Jane Puszkar  
Website: <https://votejanepuszkar.wordpress.com/>  
Office: St Charles County Council 5th District

Pro-Life  
2A  
Medical Freedom

**“Jane is a true conservative and this is her first time running for office. Her Christian beliefs come first and are a guide throughout everything she does. She will not tell you one thing during the campaign and do something different once elected.” (Jennifer B.)**

Due to her training as a Registered Nurse, your protected healthcare information is important to her. Currently, all vaccination records for adult and children are entered into the ShowMeVax database, which is accessible by Homeland Security. This gives Washington bureaucrats the ability to view your healthcare information. Jane will vote to stop and overturn this when elected.

As a constitutional conservative, freedom is also very important to Jane and has been mentioned in every public forum. She has vowed to ensure election integrity by working on a bill making paper ballots mandatory in the County. She will also propose audits on previous elections to ensure rightful installation of candidates. Like you, Ms. Puszkar has worked hard, voted often and trusted that the person elected would have your best interests at heart. When elected, Jane has said that she will be there, in your place, and voting with and for you!

I am excited to be able to give St. Charles County Council District #5 a conservative voice! For too long, I have used the excuse “I’m too busy” or “I don’t know enough about it”. After attending County Council meetings, I am convinced that District #5 needs a new voice. I will lend my voice to further the interests of our conservative values that have long been ignored. If given the opportunity to serve, I will always represent the values of the conservative majority!

## ISSUES & CANDIDATES

## St Charles County Council District 1

Name: Bruce Petrov  
Website: <https://votepetrov.com/>  
Office: St Charles County Council District 1

I am first and foremost, a follower of Jesus. He has led me in the past few years to learn to listen to His Holy Spirit better. I have committed my life to Him and leading my family, to the best of my ability, into a hopeful and joyful future!

In January of 2021, I decided to make the trek out to Washington DC with two of my boys and a friend to make our voices heard. We enjoyed that time and little did we know that we would be part of an event that made history! We had a great time and saw a million good people all there to say one thing. You should not silence the voice of the people! Overall, it was discouraging to see how unwilling our public servants were to hear our opinion. On the trip back we prayed and thought through what God would have us do. A few weeks later, God impressed upon me that I needed to run for a local office. After doing the research, I decided to seek this position, County Council.

I am a local business man, with over 25 years in business. I have learned to work with people to accomplish what is needed. I am principled and energetic, with a desire to truly SERVE the people. I am not a politician.

My singular campaign value is "Limited and Effective Government". This can be applied to everything in the public arena. I stand for the freedom of the people to live and pursue life. I will almost always fall on the side of empowering people to make their own choices. This brings up the abortion issue...a baby is not part of a women's body. It is a separate human being and it is not lawful to kill a human for convenience. I am 100% pro-life and was so very happy when abortion became illegal in Missouri this year! Taking the life of a fetus is not a human right! I pray that God will continue to bring revival to our land and help us to avoid legalizing these types of things that bring judgement and consequences.

I have 6 children and 2 grandchildren. My family works hard and promotes personal responsibility. Twenty years ago, God led us to keep our children out of the public school system and try homeschooling. This has produced more amazing fruit than we could have imagined! I support parental authority for all responsible parents. I want to empower parents and school boards to make good decisions that will benefit students. I will seek to cut as many strings as possible to federal requirements. Education is to equip our children, not indoctrinate them. I will stand to place protective barriers between our school districts and harmful CRT and gender propaganda. I support creating strong families!

I support traditional family values and take that with me wherever I go. You can find more about me by following my Facebook page at [www.facebook.com/votepetrov](https://www.facebook.com/votepetrov) Also, check out my website at [www.votepetrov.com](https://www.votepetrov.com) There you can find ways to get involved with supporting the campaign. Let's make strong local counties that contribute to a great America! May God bless America!
